

INSTITUTE OF URBAN AND REGIONAL DEVELOPMENT (IURD) PRESENTS:

TRANSIT & CITIES

EVENT

SERIES

CREATING SUSTAINABLE URBAN FUTURES

Transit is vital to the sustainability of cities—environmentally, economically, socially. Trains and buses are the most resourceful way of moving large numbers of people about the city. They use less space and energy and, when powered by clean fuels, emit fewer pollutants than any mode. They are also inclusive, allowing everyone—regardless of age, income or background—to access all a city has to offer.

Join us at IURD's Spring 2014 Event Series on Transit & Cities. Be a part of a growing movement that places transit, in its many shapes and forms, front and center in the campaign to create sustainable urban futures.

FREE EVENING LECTURES

TWO-DAY CONFERENCE

01 February 10, 2014

02 March 11, 2014

03 March 20–21, 2014

Places for People & Transit

KEYNOTE SPEAKER

Jan Gehl

Jan Gehl and Associates, Copenhagen;
Author of *Cities for People* and *How to Study Public Life*

DISCUSSANT
